In July 2014, the City Council approved Motion 2014-0674 to establish a Neighborhood Matching Grant Program (NMGP-Traffic) to match privately raised funds for the purposes of constructing permanent traffic calming devices. Neighborhoods that have removable traffic calming devices installed through the Neighborhood Traffic Management Program (NTMP) and can raise 50% of the construction money are qualified for the NMGP. Typical steps in the NMGP process includes:

- Neighborhood submits the NMGP application (this form);
- NTMP staff meets with neighborhood representatives in the field;
- NTMP staff develops construction cost;
- Neighborhood submits its matching portion; and
- NTMP staff authorizes construction.

Qualified traffic calming devices are traffic islands such as circle, chicane, diverter, splitter, etc. Islands can be landscaped by the neighborhood at its own cost once the construction is complete.

A completed application is required before the Department will review to determine eligibility and prioritize for further consideration.

## Neighborhood Representatives - Contact Information

The information below is required from persons submitting application:

### Primary Contact

Name	<input type="text"/>
Neighborhood	<input type="text"/>
Address	<input type="text"/>
Houston, TX Zip	<input type="text"/>
Daytime phone #	<input type="text"/>
Email address	<input type="text"/>

### Secondary Contact

Name	<input type="text"/>
Neighborhood	<input type="text"/>
Address	<input type="text"/>
